

marstair fact sheet #1

MRC+ remote refrigeration condensing unit

ADVANTAGES OF REMOTE AGAINST INTEGRAL SYSTEMS

IF YOUR PRIORITIES ARE:-

- INCREASED CABINET SHELF SPACE
- REDUCED RUNNING COSTS
- GREENER SOLUTIONS
- LOWER NOISE IN THE RETAIL SPACE
- REDUCED AIR CONDITIONING REQUIREMENTS
- MORE PROFESSIONAL LOOKING RETAIL SPACE

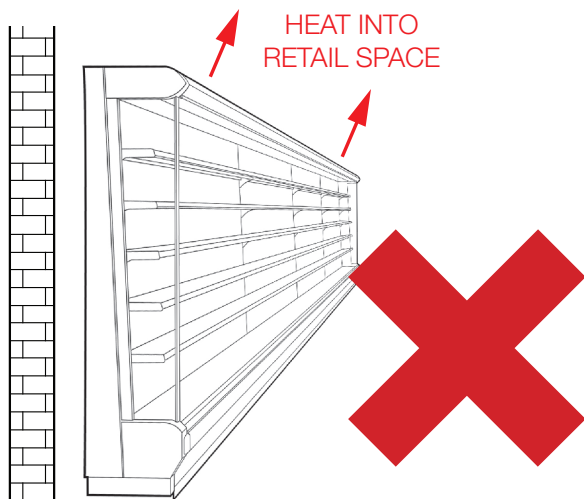

then the remote refrigerated condensing unit system is the answer for your refrigeration needs in either air conditioned or non air conditioned retail spaces.

Authorised User No. 00716

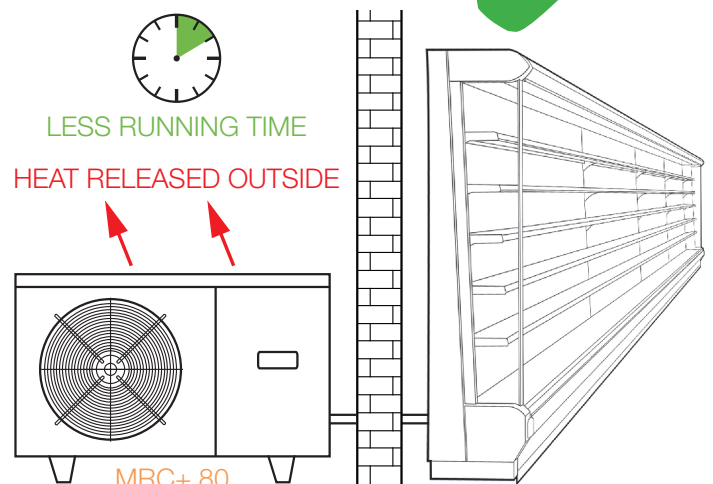

INTEGRAL REFRIGERATION SYSTEM

- ✗ Uncomfortable hot retail space
- ✗ Heat gain into retail space will make integral cabinet run longer at greater electrical cost
- ✗ Noise from integral compressor in retail space
- ✗ Less goods space in the cabinet due to integral compressor

SPLIT REFRIGERATION SYSTEM

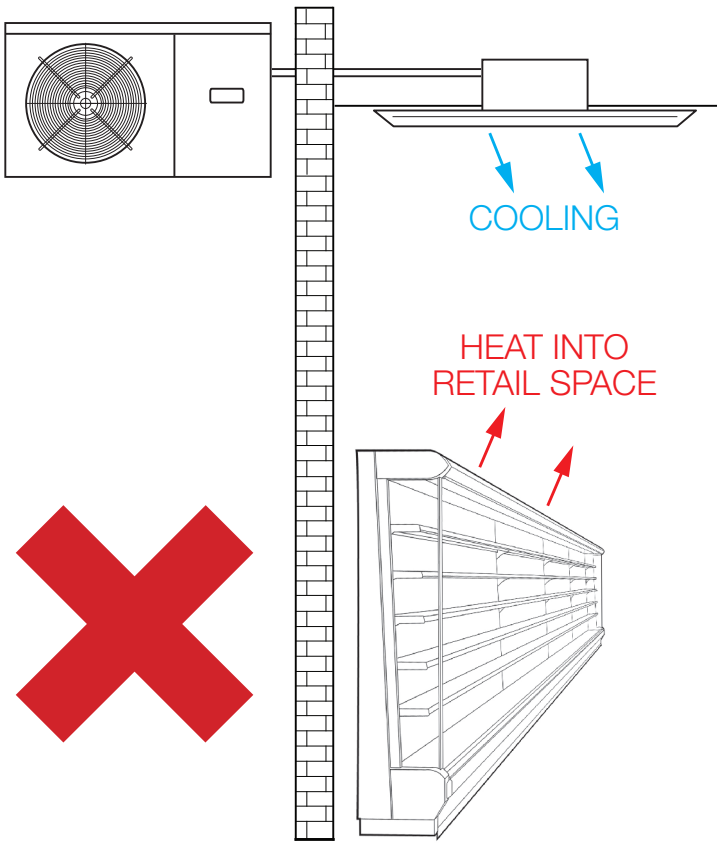

- ✓ Lower electricity costs due to reduced running times
- ✓ No heat gain into retail space
- ✓ Lower noise in retail space
- ✓ More goods space in cabinet
- ✓ ECA MRC+ units available

INTEGRAL REFRIGERATION SYSTEM

- WITH AIR CONDITIONED
RETAIL SPACE

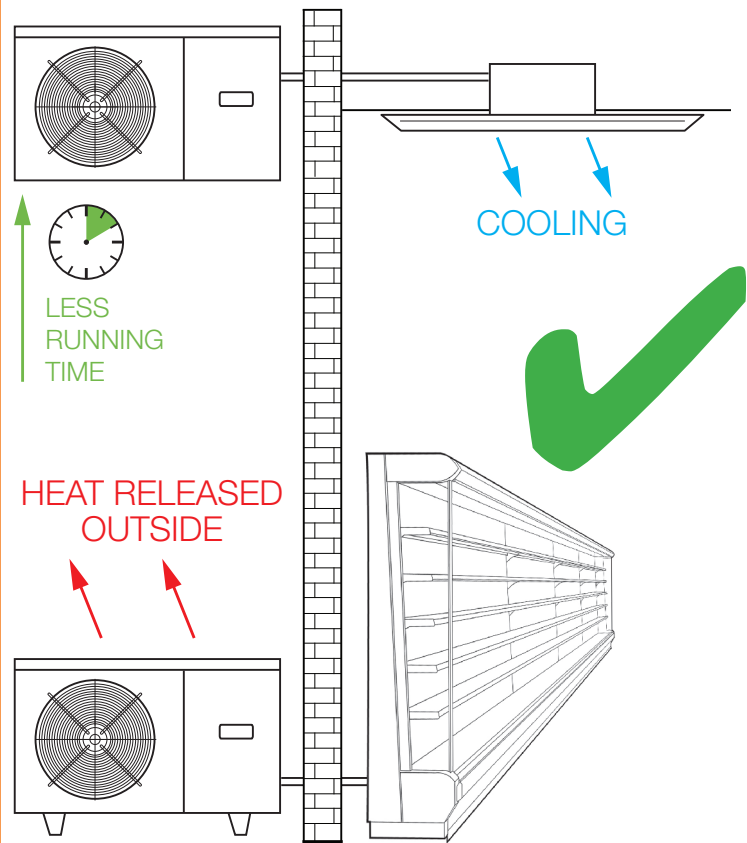

- ✗ Less goods space in the cabinet due to integral compressor
- ✗ Noise from integral compressor in retail space
- ✗ Higher heat load into retail space requiring larger air conditioning installation
- ✗ Running two compressor systems is less efficient leading to higher running costs

SPLIT REFRIGERATION SYSTEM

- WITH AIR CONDITIONED
RETAIL SPACE

- ✓ Smaller air conditioning requirement due to reduced heat load in retail space
- ✓ Reduced running cost due to reduced air conditioning requirement
- ✓ Lower noise in retail space
- ✓ More goods space in cabinet
- ✓ ECA MRC+ units available
